

## Hells Children (Golden Hawk 4)

Golden Hawk had as much as a man could handle when he made a deal to guide beautiful Kathleen MacLennans wagon train through hostile redskin land. The sex-starved Kathleen was more than willing to use her voluptuous body to seal the bargain. And when a love-hungry young Blackfoot widow named Running Moon demanded Hawk take the place of her slain mate, it looked like too much of a good thing. In the meantime, a murderous horde of Bannock Indians were closing in on the beleaguered whites.
