

The Countess Ida, Vol. 2 of 2: A Tale of Berlin (Classic Reprint)

Excerpt from The Countess Ida, Vol. 2 of 2: A Tale of Berlin It was six when Claude returned to his hotel. He was met at the door by his friend Denham, who had just arrived from London. Of all men, he was the one he most esteemed and loved. He was, in some respects, the antithesis of Claude, and it was, perhaps, this very difference which made them more attached to each other. He was totally without Claudes contemplative habits, but usually acted from impulses which, if not always prudent or wise, were always noble. He was frank, generous, and bold; full of strong affections and quick passions; a faithful friend, and a good hater. In one respect he differed widely from his friend. He held duelling to be a custom, under certain circumstances, sanctioned by necessity, and useful in its effects upon society. Without any particularly serious views of religion, he professed to believe that, in the present state of the world, the meek doctrines of Christianity were permitted at times to give way to other considerations bearing upon individual character and the general harmony of society; in short, he was also a duellist, though in a far different way from the debauched, vindictive, and cruel Elkington.
